

EPOXY-TIE® ANCHORING ADHESIVES

Simpson Strong-Tie® Epoxy-Tie® adhesives are ideal for:

- Anchoring threaded rod, rebar, smooth dowels, and IXP™ anchors in various base materials
- Anchoring into concrete tension zones with SET-XP™ adhesive

Simpson Strong-Tie® Epoxy-Tie® anchoring formulations:

- **SET-XP™**: Tested to AC308 and 2006 IBC requirements including high performance in cracked and uncracked concrete under static and seismic loading
- **SET**: High-strength formula features excellent load values and extended working time
- **EDOT™**: Formulated for economy and high strength for transportation projects
- **ET**: General purpose high-strength anchoring

Dispensing systems for Epoxy-Tie® adhesives:

- Cartridge sizes from 1.7 to 56 ounces, and bulk kits from 1 gallon to 100 gallons
- Manual, pneumatic, and battery-operated dispensing tools for maximum productivity
- Simpson Strong-Tie® EMN22i nozzle for 22 oz. and 56 oz. ET, EDOT, SET and SET-XP epoxy cartridges and 30 oz. Acrylic-Tie® cartridges ensures proper mixing and convenience
