

CARBIDE DRILL BITS, CORE BITS & CHISELS

Simpson Strong-Tie Anchor Systems® offers a complete line of premium quality carbide drill bits, core bits and chisels to handle your drilling and demolition needs. Our carbide products are manufactured to demanding tolerances and are designed to maximize production on the jobsite.

- Regular and Quad Head drill bit tip configurations as well as SDS-PLUS®, SDS-MAX®, spline and straight shank styles
- Rebar and plate cutters to solve drilling problems when rebar is in the way, or fixture holes are too small

- Core bits for larger diameter holes. Ideal for vertical and most overhead applications
- Chisels, scrapers, gouges and scalers for various demolition and resurfacing projects
