Re: ET22 Epoxy Anchoring System

Ms. Sue Hagel
Anchoring Systems Factories
136 Official Road
Addison, IL 60101

Dear Ms. Hagel:

ET22 Epoxy Anchoring System has been evaluated and passed Virginia Department of Transportation's requirements for chemical anchors and will be added to our Approval List No. 29. You will also be required each November beginning in 1998 to submit a letter certifying no changes have been made in the formulation since the original test was performed. This letter will serve as your approval until List No. 29 is published in February 1999.

If I can be of further assistance, please call (804) 328-3029.

Sincerely,

A handwritten signature in cursive script that reads "James W. Seal".

James W. Seal
Transportation Engineer
